There's a reason Mongolia is known for its world class fishing, and you can experience it firsthand at **Taimen Lodge Mongolia**. Operating since 2018, our lodge is set deep in the remote northwest of Mongolia, along the legendary **Shishged River** in Khuvsgul Province.

Surrounded by the dramatic mountains of the Western Taiga and home to the nomadic reindeer people, the Shishged is unlike anywhere else on Earth. Its pristine waters hold rare and exotic fish found only in Mongolia, offering the kind of untouched fishing every angler dreams of.

The ultimate prize is the **Hucho taimen** a true giant and a once in a lifetime catch that roams only a few rivers in Mongolia and southern Siberia.

Our all inclusive camp features log cabins, traditional yurts, a sauna and hot showers, a comfortable dining lodge, and outdoor relaxation areas. Packages include accommodation, meals, boats and fuel, professional guides, and more.So you can focus entirely on the fishing.

Located within a government protected area requiring special permits, this region remains one of the last truly untouched places on Earth.

If you're searching for exceptional fishing, breathtaking wilderness, and an authentic nomadic experience, there is simply no better place than **Taimen Lodge Mongolia**.
